Lady Costanza: a growing family

Lady Costanza, the latest evolution of a thriving project, allows the warm light of the shade to be positioned over a dining table or in the centre of a conversation area.

The telescopic height regulation and the possibility to rotate it 360° on its base give this source of light an elegantly functional flexibility, always perfectly suited to whatever space it occupies. The diffuser, made of Makrolon® polycarbonate sheet, is available in white, red and black.
